EXTRA INFO

The Youth Council is the voice of young people in Lambeth both locally and nationally. We work with the borough to make sure young people influence decisions that affect them and join with other youth councils to bring about change at national level.

By joining us, you'll make a difference and benefit from taking part. There are a number of opportunities to learn, network, and have fun.

The Youth Council is an informal group like any other youth project, we do trips and activities alongside our political and advocacy work.
